Remember the old LOTS songs? There are a few songs with explicit references to JQ; a quick search picks out at least the following:

J. Random User

J.Q. Johnson (of course!)

The Loser of the System

The Man Who Never Returned

Today...

JQ was an integral part of the LOTS culture, so even the songs that don't mention him explicitly could be said to include him in spirit. Finding these after so long made me smile; I hope they bring you some good memories, too.

I remember that JQ was always quick with a smile, even when he was harried and stressed.
