- **The DARVO Use Questionnaire (DARVO-USE)**

- **Harsey, S., Adams-Clark, A., & Freyd, J.J. (2022, April). Deny, Attack, Reverse Victim and Offender: DARVO's Associations with Sexual Harassment and Rape-Supportive Attitudes. Poster presented at the [International Society for the Study of Trauma and Dissociation Annual Conference](#), Seattle, WA, 2-4 April 2022.**

- **Harsey, S. & Freyd, J. J. (in preparation). Deny, Attack, Reverse Victim and Offender: Using DARVO is Associated with Sexual Harassment Perpetration and Rape-Supportive Attitudes.**

A note about this document:

On the following pages are the items used in Harsey & Freyd (in preparation). These are copied directly from the downloaded survey. Two things to note about the document: (1) items have variable names/labels attached, which are not visible to participants in the survey; (2) the document contains items for two DARVO conditions. In the first condition, participants are asked to report on a time when they were confronted over a wrongdoing they did not commit (Innocent condition). In the second condition, participants are asked to report on a time when they were confronted over a wrongdoing they did commit (Guilty condition). The DARVO items are therefore repeated for the second condition starting on page 13 of the document.
